

SAP Lumira Hands-on Workshop Preliminary Set-Up

<p>Download and install Lumira. Go to http://www.saplumira.com/ and select the “Free Desktop Download” button in the upper right corner. You will be taken to a page to select 32 or 64 bit download options of the free personal edition.</p>	
<p>Register for a Lumira Cloud account. Go to https://cloud.saplumira.com/landing-page.jsp and click the “Register New Account” button at the bottom of the page. This will set you up with a free Cloud account with capacity up to 1Gb of space.</p>	
<p>Download and install the SAP Mobile BI app. In the App Store or on Google Play, search for SAP BusinessObjects mobile and download. Currently, to connect to Lumira Cloud/Server, only tablets will have the proper connection.</p>
